Hi Stan,

I know that you guys are not fully wrapped up at our facility (126 Wallace Ave, Downingtown), but I wrote this up a while ago and wanted to send it over. It was a true pleasure working with John and Allen. I'm not sure if you have a spot on your website for customer feedback but feel free to use. Also you can feel free to use us as a reference with future jobs.

I worked with John Brooks and Allen Shup on my first building renovation project. I did not know how lucky I was to be handed such a great team when the bids were awarded. The project was a multi-prime job. Even though the other contractors were not SMJ's subs, Allen and John were able to successfully coordinate the other primes without any issues. I feel that they were successful due to their extensive knowledge, professionalism, and respect for their work and the other contractors. They provided information that helped make the best decision for our school saving us money on multiple occasions. John went above and beyond in customer service throughout the project. I highly recommend this company and specifically this team for building/renovation projects.

Thank you,
Lindi
