Dear Jack:

Thank you for the fine job that you did in coordinating the work on constructing the renovations for Creative Health Services and the Community Health and Dental Care. I know that you had a difficult job and I appreciate your efforts. I am glad that you were willing to be flexible and willing to adjust to the requirements of the project and the changes that were made during construction.

It was a pleasure to work with you and Keith. You were always professional in your work with the client and with Keith. That made the job run smoothly. That also made my job easier. I think both Creative Health Services and their tenant, Community Health and Dental Care, are pleased with the workmanship and the cooperation of SMJ.

This is one of many projects that I have designed that were constructed by SMJ. I look forward to having the opportunity to work with you again.

Sincerely yours,

P. Richard Frantz, A.I.A.
