Mr. Stanley A. Fonder, President
SMJ Contracting, Inc.
1050 Benjamin Franklin Highway West
Douglassville, PA 19518

Dear Mr. Fonder,

I am writing to thank you and those within your organization for the efficient coordination and quality of work on our bath house here at Camp Manatawny by both your own staff and sub-contractors involved.

Speaking on behalf of the those of us who work here and a few of our Board members who have interfaced with you, your company and your affiliates, we can truly say that it has been a positive experience, an education and a pleasure to have SMJ Inc. contracted for this undertaking.

I personally cannot say enough about your on-site supervisor, Mr. Bob Baumann, and how he has consistently conducted himself *every day* on the job. He took the effort to courteously explain whatever detail inquired of him about the work even during times when it may have been inconvenient. His demeanor was always genuinely friendly and his deportment was nothing less than professional.

As SMJ winds down in the final stage with finishing touches, know that anyone associated with this camp has been exceedingly pleased to observe the progression of the bath house on the Internet, Face Book and the like, from demolition to its present completion. Everyone is very excited to have this built addition as part of the overall camp experience. Our booster dinner theme ... "Splish! Splash! Help our campers get a bath" is now a reality! We are truly blessed and would highly recommend your company without reservation.

Sincerely yours,

Tom Scarsella

General Manager
