Douglassville, PA 19518

RE: Creative Health Services, Inc.  
Pottstown, PA 19464

Dear Stan:

Thank you for the fine job that you, your organization, and your sub-contractors did in constructing the renovations to the 40,000 square foot building for Creative Health Services and the Community Health and Dental Care. Since we were working with an existing building, the project included many challenges and a few surprises. The staff and workers from SMJ and the sub-contractors were skilled craftsmen who made the best of some difficult situations. I appreciate their dedication to the project and their cooperative and pleasant attitude. It was a pleasure to work with your vice-president, Jack Ayres, and the project superintendent, Keith Eckert. Their ability to direct the work on the project and their willingness to adjust to the changes made during the course of construction enabled the project to move smoothly to completion.

I think both Creative Health Services and their tenant, Community Health and Dental Care, are pleased with the workmanship and the cooperation of SMJ. They now have the physical facilities to enable them to serve the health needs of our community.

This is one of many projects that I have designed that were constructed by SMJ. I look forward to having the opportunity to work with you again.

Sincerely yours,

P. Richard Frantz, A.I.A.
