SMJ Contracting, Inc.
1050 Ben Franklin Highway West
Douglassville PA 19518

We wanted to acknowledge the excellent work provided by SMJ Contracting, Inc. on the new Evans Elementary School for the Spring-Ford Area School District in Royersford, PA.

We found that the leadership provided by Jack Ayres as construction project manager and Keith Eckert as construction superintendent was the key factor in the success of this 18 million dollar facility. Jack and Keith delivered this project under budget and ahead of schedule without sacrificing overall quality and customer satisfaction.

We feel that Jack and Keith's proactive and positive methods of communicating with other constructors, the design professionals, and the owner fostered a sense of teamwork and cooperation for the duration of the project.

Jack and Keith exhibited commitment to the work, attention to detail, and their thorough understanding of the means and methods of construction was clearly evident. All safety and administrative procedures were scrupulously observed.

DLR Group would be more than happy to work Jack, Keith, and SMJ Contracting, Inc. on other construction projects in the future. If you have any question please contact DLR Group at (215) 923-2420.

Sincerely,
DLR Group

Chris Elnicki
