March 20, 2006

Dear SMJ Construction:

This letter is an expression of our appreciation for building a wonderful custom home for us. We have been in our new home since December 2004. It is absolutely wonderful to live in a home of this exceptional quality. There are no open issues and we have had no difficulties.

We have had a number of people come through our home and comment on the exceptional workmanship. We truly love our home and have a strong appreciation for all the hard work, time and careful planning that went into building it.

Our house was staffed with top talent in all the various trades: framers, masons, plumbers, excavators, carpenters, painters electricians etc. Those workers were highly skilled and took great pride in their work. Steve ensured that the team delivered exceptional quality and inspected all the work on a regular basis. We were in constant communication with Steve discussing work progress and next steps. The work was very organized, which allowed for continued progress, little downtime and a house delivered before it needed to be done.

It is our opinion that SMJ is the best builder in the area. The proven process both on the business and building side sets SMJ apart from all other builders. Steve does a wonderful job in all aspect of the building and fire process. SMJ is about quality and customer service. Building with SMJ has been an enjoyable and memorable experience. The professionalism, service, skill, quality, flexibility and integrity that all members of the SMJ team exhibited throughout the entire process (including sub contractors) are unmatched in our area. We feel great about our decision in choosing SMJ Construction and would not hesitate to recommend SMJ to others searching for a custom builder or to build with SMJ again.

Sincerely,

Robert & Debra Norris
